

A STORY OF HOPE

Valarie is a parent at Happy Hands Education Center in Broken Arrow. She applied for assistance from the Opportunity Scholarship Fund on behalf of her daughter, Hope.

Hope loves playing with Play-Doh and blocks, and imitating anything her brother is doing. And she has hearing loss and communication delays.

Not all schools are equipped to provide the technology, resources and special learning she needs.

"This scholarship allows my daughter, Hope, to receive the education only Happy Hands Education Center can provide her. The scholarship reduces the financial stress my husband and I face as parents of a special-needs child."

Help more students like Hope!
