27 Credit for Contributions to an Eligible Public School Foundation or Public School District

A credit is allowed for contributions to an eligible public school foundation or public school district. The credit is 50%* of the amount contributed, not to exceed \$1,000 for single individuals, \$2,000 for married individuals filing jointly, or \$100,000 for a legal business entity. Tax credits that are allocated to an individual(s) by a pass-through entity are limited based on the total credit limitation of the pass-through entity and not by \$1,000 (or \$2,000) limitation for individuals. For a taxpayer who makes an eligible contribution and makes a written commitment to contribute the same amount for an additional year, the credit will be 75%* of the total amount of the contribution made during the taxable year. An “eligible public school foundation” means a nonprofit entity formed pursuant to Oklahoma laws that is exempt from federal income taxation pursuant to either Sec. 501(c)(3) or 509(a) of the Internal Revenue Code of 1986, as amended. Each public school foundation must be approved by the local board of education prior to accepting qualifying donations. “Eligible public school district” means any public school. Any credit allowed but not used will have a three-year carryover provision. If claiming the 75% credit, evidence of the written commitment must be provided. 68 OS Sec. 2357.206 and Rule 710:50-15-115

Note: The credit has an overall cap. If the total credits eligible to be claimed by all individuals or businesses exceed the specified cap, the percentage allowed will be reduced. For tax year 2024, the full amount of the statutory credit is available.
